You can also study for these exams at Yejj eAcademy.

MCDST (Microsoft Certified Desktop Support Technician)

The Microsoft Certified Desktop Support Technician (MCDST) credential proves that you have the skills to successfully support end-users and to successfully troubleshoot desktop environments that are running the Microsoft Windows operating system.

MCDST candidates are required to pass two core exams. Elective exams are not required. The following table lists Official Microsoft Learning Products courses and Microsoft Press books that are designed to help you prepare for these exams. The MCDST credential is valued by employers and decision makers who use Microsoft Windows XP.

MCP (Microsoft Certified Professional)

Microsoft Certified Professional (MCP) refers to both an individual Microsoft certification and a broader professional certification program.

Yejj provide training course and preparation for Exam 70-270: Installing, Configuring, and Administering Microsoft Windows XP Professional.

This certification exam measures your ability to implement, administer, and troubleshoot information systems that incorporate Microsoft Windows XP Professional. Candidates for this exam operate in medium to very large computing environments that use Microsoft Windows XP Professional as a desktop operating system. They have a minimum of one year's experience implementing and administering any desktop operating system in a network environment.

Your Guide To Microsoft Certification At Yejj

1. Gain Hands-on Experience with Microsoft Products

Working in the IT field gives you invaluable hands-on experience with Microsoft products and solutions, which will bolster any certification plan. You're well on your way to basic certifications with job-related experience of six months or more (one year for advanced certifications).

2. Start Training For Your Certification at Yejj.

Take advantage of a wealth of training resources at Yejj that will complement the way you learn best. With over 5 years of IT industry experience, we can provide you the best advice. Our hands-on and applied, instructor-led training will help enhance your skills and understanding.

3. Know What to Expect on Exams

We will assist you to know what to expect in the exam situation as part of your study at Yejj eAcademy. Our trainers will guide you from training to the exam situation. For each MCP exam, you'll have information that will familiarize you with the testing objectives, intended audience, skills measured, and suggestions to help you pass.

5. Take a Trial Run with a Practice Test

See whether you're ready to take an exam with a comprehensive practice test. Although it's not designed to indicate exactly what your score would be, it does provide valuable feedback on where you may need additional study, training, or hands-on work experience. We provide you with a two session practice per exam at \$15 per session.

6. Take Your Required Exams

You can take your exams at Yejj eAcademy through Prometric Testing, the internationally recognised and approved testing for Microsoft certification. Talk with our eAcademy staff to register for an exam.

.....

All Yejj training rooms have carpet and air conditioning for comfort, plus up to date technology and practice areas for hands on experience. Trainers have a broad range of industry and teaching experience.
