

## *Yejj Training Cambodia* *Raising The Standards of Learning In Cambodia*

### Training of Trainers Course

#### **Training of Trainers course**

At Yejj eAcademy, we aim to develop and enable trainers to reach their full potential. The success and failure of the students' ability to understand and progress in any courses depends in part on the ability of the trainers to teach well. Therefore the Yejj Training of Trainers course is based on relevant research of how students learn and on current best practices. We equip trainers to teach their courses by learning valuable educational theory and then putting it into practice on a daily basis.

#### **Goal**

When trainers complete the Yejj Training of Trainers course, they have developed strategies and skills which allow them to teach a range of courses in computer, English and soft skills. Additionally, they have built up self confidence necessary to teach a wide variety of students (professionals, university students, scholarship students and students from shelters) comfortably and effectively.

#### **Aims**

The aim of Yejj's Training of Trainers Course is to assist trainers to;

- Increase their understanding of what characteristics are necessary in good teachers;
- Incorporate organisational core competencies and learning goals into day to day training;
- Understand and identify different learning styles and multiple intelligences;
- Incorporate different teaching styles to maximize student learning;
- Develop an understanding of differentiation and apply it to their courses;
- Identify and make use of a variety of assessments to measure student learning
- Gain an understanding of class management

#### **Course details**

Duration. 6x 4hr hour lessons, plus practical and assignments.

#### **About Yejj Training**

**Yejj Training Cambodia is a pioneering and innovative organization providing high quality skills training to international standards in Cambodia.**

#### **Yejj Client Relationship**

At Yejj we believe it is essential to truly understand the client's needs before entering into any engagement of service and support. To achieve this Yejj management and consultants meet with clients to best determine their needs and requirements and establish the agreed objectives of any activity.

In line with our overall vision we seek to develop ongoing partnerships with our clients rather than deliver services on a purely cost or ad hoc basis. This means we can provide a comprehensive and cost effective service, coupled with continuity and far ranging support and solutions to our clients.
